

# RUST REMOVER SOAK

**SPECIALIST™**

WD-40® Specialist® Rust Remover Soak removes rust quickly without harming surrounding parts, trim, gaskets or paint. It restores surfaces to bare metal without scraping, chipping or scrubbing. This non-toxic, non-hazardous, non-flammable and biodegradable formula is effective on small or large items that can be soaked .

## FEATURES AND BENEFITS

- Removes rust quickly
- Non-toxic and non-hazardous and non-flammable and biodegradable
- Won't harm surrounding parts, trim, gaskets or paint
- Ideal for restoring rusted parts to bare metal
- Fluid can be re-used over and over

## APPLICATIONS

Auto restoration · Tractors · Antiques · Farm Equipment & Implements · Trailers & Hitches · Rusty Tools ·

## DIRECTIONS

1. Before soaking, remove as much dirt and loose debris as possible from the item to be treated. Remove oils and greases with a detergent or degreaser before using this product to improve the rust removal effectiveness.
2. Pour the Rust Remover Soak into a container so that the object being treated is completely sub-merged. This product is ready-to-use and requires no dilution.
3. Leave the item in the solution for at least 30 minutes to remove light rust, overnight (8 hours) for medium rust, and up to 24 hours for heavily rusted items.
4. Remove the item from the solution and rinse with water and dry completely. If rust remains in the metal "pits," soak again and rinse to remove.

## PHYSICAL AND CHEMICAL PROPERTIES

Solubility in Water	100%

## TIPS!

WD-40® Specialist® Rust Remover Soak can be re-used. The more you de-rust, the darker the solution becomes. The solution is spent when it turns black and no longer performs. Do not pour the used solution back into fresh product in the original container
