

HIGH PERFORMANCE WHITE LITHIUM GREASE

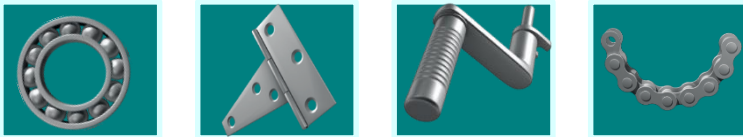

SPECIALIST™

WD-40 Specialist High Performance White Lithium Grease is a higher viscosity solution that delivers long-term lubrication that won't drip or run. It's great for metal-to-metal applications and reducing friction to ensure your tools and equipment keep moving smoothly. The product can be used on load-bearing metal connections.

FEATURES AND BENEFITS

- ⊕ Withstands temperatures of -17°C to +148°C
- ⊕ Water and heat resistant lubricant
- ⊕ Long lasting protection against rust and corrosion
- ⊕ High viscosity
- ⊕ For use on metal to metal connections

APPLICATIONS

Motor Pivot Points • Bearings • Winches • Latches • Pistons • Conveyors • Overhead Door Tracks • Cables • Bearings • Runners • Water Pumps • Gear and Brake Mechanism • Metal Parts • Hinges and Catches

DIRECTIONS

Shake can well before use. Apply by spraying directly on surface to be lubricated and protected.

PHYSICAL AND CHEMICAL PROPERTIES

Boiling Point (initial)	221°C
Solubility in Water	Partially Soluble
4 Ball Wear	1.01 (ASTM D4172)
Extreme pressure	<300 lbs (ASTM D3233)
Flash Point	<-34 °C (ASTM D3828)
Appearance/Odor	Uniform, opaque, off-white to light tan pourable liquid with a petroleum odor
NLGI Grade	NLGI II (Ingredient)
